Log of Revisions to PSI Documentation and Software

Updated May 28, 2003

The following table summarizes all of the revisions made to the PSIs software, software documentation and the Guide to Patient Safety Indicators (Guide) document since the original release of the version 2.1 software and documents in March 2003. The table lists the revision number, the date the revision was made, the component affected by the change and a short summary of the changes that were made. For convenience and ease of use, the changes are listed in reverse chronological order with the most recent changes appearing first in the table. This log of revisions is current as of the date noted above.
